

Metal-Matic, Inc.

QUALITY

CARBON STEEL TUBING

WELCOME TO METAL-MATIC, INC.

COMPANY PROFILE

Since installing the first tube mill in 1957, Metal-Matic, Inc. has set the standard for precision, quality and customer satisfaction. Metal-Matic is a world leader in manufacturing welded steel tubing for standard and specialty applications. Our mission is to continually improve the QUALITY, VALUE and SERVICE of our current products as well as meet the challenge of new applications.

Metal-Matic, Inc. is a leading supplier of pressure, mechanical and hydraulic fluid line tubing to the industry. Over 58 years of technical and manufacturing excellence is reflected in every length. All tubes go through multiple manufacturing and evaluation steps that ensure unvarying uniformity, strength, ductility and precision. Everything is produced on the latest equipment and subject to stringent testing. Only when tubing meets or exceeds every specification is it approved.
